Restriction of Hazardous Substances (RoHS)

We, Carant Antenna KFT, hereby confirm that all our Antenna products meet the requirements and are in full compliance with EU Directive 2002 / 95 EC.

Our products supplied to you do not contain any substances which are prohibited by the RoHS directive. The materials and processes used for the manufacturing of Carant antennas do not intentionally contain added heavy metals such as cadmium, chromium-VI, lead and mercury or their compounds, nor Polybrominated Biphenyls (PBB) and Polybrominated Diphenyl Ethers (PBDE), mentioned in the 2002 / 95 / EC directive.

Lead-free conversion

The conversion to lead-free solder for internal solder points and pre-tinning of parts has become fully implemented from 2006. June 01. at Carant Antenna Kft.

The Carant antenna products will be actually lead-free from the date 2006 July 31.

Including ACY9 antenna

Carant Antenna Kft.
